

Dear Customer,

It is our pleasure to present our latest catalogue, featuring a range of the highest-quality hand tools manufactured by Zolwro – Baumeister Sp. z o.o. under the Olejnik Professional brand.

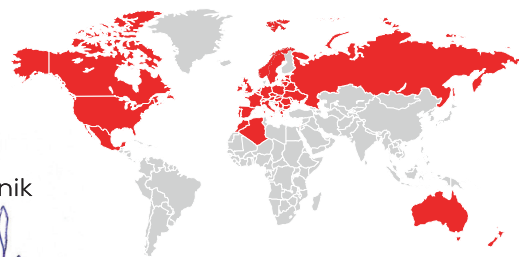

The company Zolwro-Baumeister was founded in 1980 by Stanisława and Zdzisław Olejnik. Since then, the company has been built according to the highest standards, first in Wrocław and later in the year 2003, it transformed from a sole proprietorship into a limited liability company and expanded its circle of partners to include Austrian shareholders...

Zolwro-Baumeister is a manufacturer of high-quality tools for both general and specialized applications. Our tools satisfy painters, bricklayers, plasterers, and others. We stand out with our flexibility, excellent customer service, and quick adaptation to new market trends, allowing us to introduce innovative tools while preserving tradition, enabling builders to work much faster and more comfortably.

Zolwro-Baumeister Sp. z o. o. supplies its products to over 30 countries worldwide, including Poland, the United States of America, Netherlands, Great Britain...

Our mission

At Olejnik Professional, we believe that a tool is more than just an object – it is a partner in every project. That's why we don't simply provide tools, we deliver complete, reliable, and functional solutions that make your work easier, faster, and more enjoyable.

From tiling and bricklaying to finishing walls, corners, ceilings, and facades, or levelling any surface – our tools are designed to turn challenging jobs into simple and efficient tasks.

Every trowel, level, roller, and float is crafted with the craftsman in mind – how it feels in your hand, how naturally it moves, and how perfectly it supports your skill. Because while tools are important, the true value lies in the hands of the master who uses them.

Our mission is to support your craftsmanship by continuously improving the quality, comfort, and performance of every tool we make.

Steel types

Crafted from premium hardened stainless and carbon steel – Olejnik Professional delivers lasting reliability.

We also offer hardened stainless steel in two elegant finishes: gold and silver.

Handgrip types

We offer a wide selection of handles – choose the one that gives you the ultimate comfort while working. Our range includes premium leather for a classic touch, natural cork for lightweight control, durable two-component rubber handles for extra grip and traditional wood for timeless craftsmanship. For those who value uniqueness, we also offer untreated vintage leather with a natural, authentic look, and refined Alcantara with a soft, polished finish. No matter what your preferences are, you'll find the perfect handle to suit your style and needs.
